Jamil Sinno

Software Developer

SUMMARY

Based in Halifax, NS. Looking to bring my skills to a tech company with global reach to promote web accessibility. Creative, detail-oriented, software developer with an interest in building full-stack applications. Proven track record of creating and implementing successful front and back-end web applications in group work and individual settings.

WORK EXPERIENCE

Software Developer at UNUM Health

Jan 2022 — March 31, 2023

- Technologies used: React, PHP, Docker
- Collaborated with a team of developers to upgrade the application from PHP
- Integration of CI/CD tools to improve team coordination on project work

Recent Projects:

No Game Left Behind (Full-Stack Web App) – Full stack web application that reads the user's steam library. The user can sort the games based on completion, if they want to replay the game, and their favorite games. Technologies used: React, Node.JS, MongoDB.

100Notes (Full-Stack Web App) – Users can log in to their profile and find their list of notes. They can add new notes through an input, which they can then edit or delete all notes in their profile. Technologies used: React, Node.JS, MongoDB.

Other Projects: Canuck Coffee, Steve's Gallery, and Sally's Salon.

Full-Stack Web Developer at Jamil Sinno Consulting | Halifax, NS

January 2022 — Present

Created web applications and static websites for different clients across small and medium-sized businesses. Also, consulted on SEO and social media strategy. Some clients included:

- UNUM Health | React, PostgreSQL
- Connect the Dots | Halifax, NS | HTML, CSS, & JS
- R.A.M.P. Atlantic Ltd. | HTML, CSS, & JS

Project Coordinating Officer at IBM | Halifax, NS

September 2021 — Present

Coordinated between the IBM, Federal Government, and associated companies to facilitate and improve large-scale projects.

- Applied Agile and Scrum methodologies
- Worked in teams of up to 10 people
- Built a hardware refresh plan, lead the project, and reported the progress to IBM executives.
